DEATHS.

DIED—On Tuesday evening, April 3, in the 42d year of his age, Charles Drake, M. D. The death of such a man is scarcely less a public than a private calamity; and if his family and immediate friends lament his departure more than society at large, it is only because they are more intimate with his intellectual and moral worth, and hence more deeply realize their loss. With a mind at once acute, vigorous and comprehensive, and a heart keenly alive to human suffering, his devotion to medicine as an inductive science, affording ample scope to his powers and his sensibilities, overlooked the frailty of his physical constitution; and thus, while attainments were insured which few can boast, his untiring spirit was continually expanding in views of usefulness that knew no limits, but those which "marked the boundaries of his earthly habitation." "Nec prosum domino quæ prosum omnibus, artem!" [Communicated.] On Tuesday, April 3, Louisa M. Sherman, daughter of the Hon. Alpheus Sherman. LIVERPOOL MARKET.

Feb. 29.—The demand for Cotton last week was on a limited scale, only reaching 10,140 bales, viz: 240 Sea Islands at 10 a 15d. 10 Stained 5 1/2 a 7 1/2—30 at 7 1/2d. 5170 Upland 5 1/2 a 7 1/2—140 at 8 a 8 1/2d. 1320 Orleans 5 1/2 a 6 1/2. 890 Alabama 5 1/2 a 6 1/2. 1540 Brazil 6 1/2 a 8 1/2. 320 Egyptian 7 1/2 a 9. 30 W. India 6 1/2 a 8 1/2. 620 E. India 4 1/2 a 5 1/2. 10,140

With the exception of 300 bales for export, the business done was confined to consumers, who in the early part of the week, purchased on rather more favorable terms, but subsequently the market became more steady, and any previous decline was regained; the import during the week was 20,200 bales. The sales of Cotton for the past four days are about 16,600 bales, with an advance in prices, of fully 1/2 per lb. but a corresponding improvement not having taken place yesterday, in the Manchester market, ours has had less animation to-day; about 1500 of the foregoing are on speculation. Ashes have been in more regular demand, and 320 brls. of Montreal Pot sold at 23a25s 5d; 370 brls. of Pearls at 29s4/29s 3d, were taken by speculators. Tar, 100 brls. sold at 12s 3/4d 13s per brl. having been previously offered at auction, and middling quality at 11s 3/4 per cwt. Quer. Bark, about 70 hhds. of Philadelphia, at 8s per cwt. Cloverseed, about 40 tons were offered at auction on the 27th inst., and about 8 sold at 63s4/70s; some small sales of good quality, has since been made at 66s per cwt. There has been more doing in Wheat, the last few days, and rather better prices obtained. In Flour, the transactions quite limited, and you have annexed particulars of the Stocks. Tobacco, the sales of the month, are 879 hhds of which 217 are Virginia Leaf, and 512 Stemmed, 62 hhds. Kentucky leaf, and 82 of Stemmed; our present stock consists of 8569 hhds. against 6683 at this period last year.

LONDON, Feb. 28.—The Funds.—This being settling day in the Consol market, the brokers are chiefly occupied in settling accounts, and we believe that at present all is going off well. Consols, which left off yesterday at 82 1/2 for the account, are not quite so good this morning; they opened at about 82 1/2, afterwards were down at 82 1/2 for Money, and 82 1/2 for Account, owing to some sales of stocks being effected. We should have imagined that the repeated declaration again made last night in the House of Lords of the Prime Minister, with the positive assurance that the peace of Europe would be maintained, would have had the effect of improving the market; but this was not the case, being thwarted by some manoeuvres going forward to those obstacles in the way of the passing of the Reform Bill in the House of Lords. This has some weight on our Funds at present. In the Foreign market little or nothing as yet. Consols at present 82 1/2 for Money. Half Past One.—The fluctuation of this account being so trifling no failures are expected to take place, but money is scarce in the House, and it is a Bull Account with 5-16 contango. Consols may be quoted at present 82 1/2 for money, and 82 1/2 for April. Up to the present hour we are without reports or any political information of consequence. Don Pedro's expedition is at present the topic of conversation, and it is expected that Madeira will fall without much resistance. It is expected there will be this night a grand struggle in the debate on the Reform Bill.—The Foreign market is void of the least interest. Consols 82 1/2 Three o'clock. HAVRE, March 1.—Our last respects were under date of the 20th ult. We have had a steady demand for cottons since then

at full prices, for all U. S. sorts. The market is very firm—some arrivals have lately taken place, and our stock has undergone a small increase, being now estimated at 25,000 bales.—Ashes remain very flat, and the transactions in both Pots and Pearls have been quite small. Extensive sales of Rice have been made at an advance of 1 fr. The inquiry for American flour is limited; we have just sold 300 barrels Western Canal at 40 fr. in bond. Supplies to the extent of about 1,000 brls. are shortly expected from various ports in the United States. The wheat by the Rhone is still unsold. The demand for coffee is reviving, and prices on the rise.—[Daily Adv.]

AMERICAN RAIL-ROAD JOURNAL. The subscriber is now publishing a weekly paper, called the AMERICAN RAILROAD JOURNAL. A principal object in offering the proposed work to the Public, is to diffuse a more general knowledge of this important mode of internal communication, which, at this time, appears to engage the attention of almost every section of our country. THE AMERICAN RAILROAD JOURNAL is printed on a sheet of the largest size, (mammoth) and put up in a convenient form for binding, each number containing sixteen large octavo pages of three columns each. The selections, upon the subject of railroads and other works of internal improvement, will be from the best authors, both of Europe and America, and will be occasionally illustrated by engravings. A part of this Journal will be devoted to the subject of internal improvement—giving a history of the first introduction of railroads into England and their improvements to the present day. It will also notice the meetings, in different sections of the country, upon the subject of railroads. The remaining part of the paper will contain the LITERARY, MISCELLANEOUS AND NEWS matter of the NEW-YORK AMERICAN, as prepared for that paper, omitting all political subjects, except such as are of general concern. The terms of the American Railroad Journal are THREE dollars per annum, payable in advance; and will not be sent without. Any person who will obtain eight subscribers and remit the amount, shall have a copy gratis; and to companies of ten subscribers, who associate and remit twenty-five dollars, it will be sent for \$2.50 each per annum.
